EMPLOYEE SNAPSHOT

This section offers an in-depth snapshot of a single employee, providing a comprehensive view of their professional profile. It details core attributes such as department, name, salary, experience, and performance rating. To ensure dynamic exploration, I have applied data validation on both department and name, while unique filters on salary, experience, and rating allow for a precise, personalized breakdown. The accompanying images demonstrate these interactive filters in action, offering a clear, tailored perspective on the employee's career journey."

KEY WORKFORCE METRICS OVERVIEW

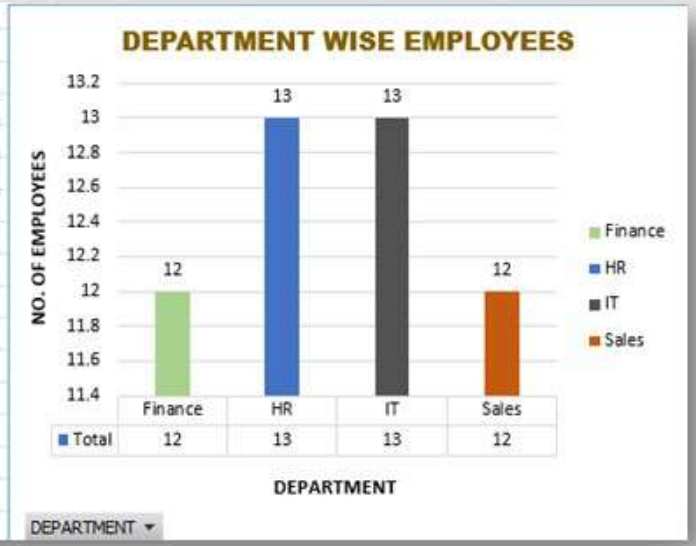
This section highlights the company's overall workforce performance by presenting key aggregated metrics. It displays the average salary, average performance rating, highest salary, and total number of employees in the company. These metrics offer a high-level snapshot of organizational health, enabling leaders to assess trends, identify outliers, and drive strategic decision-making across the organization.

AVERAGE SALARY	₹ 57,220.00
AVERAGE PERFORMANCE RATING	3.86
HIGHEST SALARY	₹ 97,000.00
TOTAL EMPLOYEES	50

DEPARTMENT-WISE EMPLOYEE DISTRIBUTION

This chart provides a clear breakdown of the employee distribution by department, showing how the workforce is spread across different functions. On the left, each department is listed, while on the right, the number of employees in each department is displayed. This bar chart allows leadership to quickly identify the largest and smallest teams, providing valuable insights for resource planning, team balancing, and future growth strategies

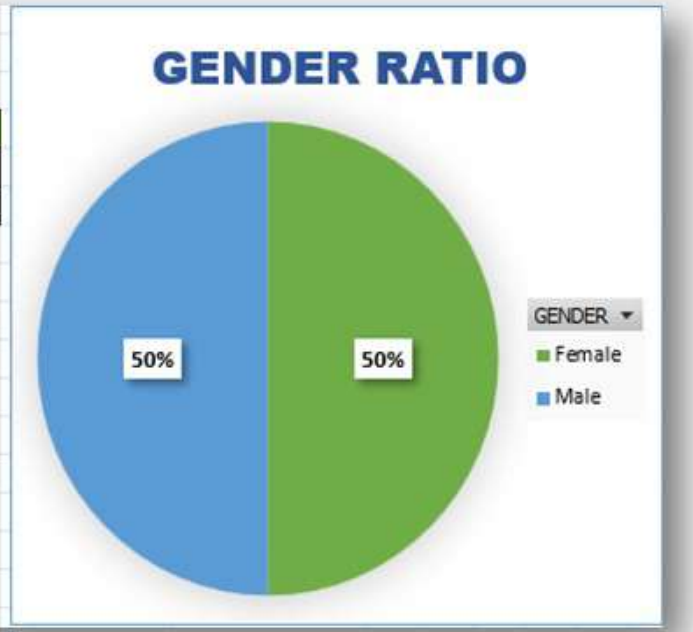
DEPARTMENT	Count of NAME
Finance	12
HR	13
IT	13
Sales	12



GENDER DISTRIBUTION OF EMPLOYEES

This pie chart illustrates the gender ratio within the company, breaking down the total number of employees by gender. On the left, gender categories (male and female) are listed, while on the right, the count of employees is shown for each group. This visual highlights the balance (or imbalance) between male and female employees, helping inform diversity, equity, and inclusion strategies across the organization.

GENDER	Count of EMP. ID.
Female	25
Male	25



AVERAGE SALARY BY EXPERIENCE

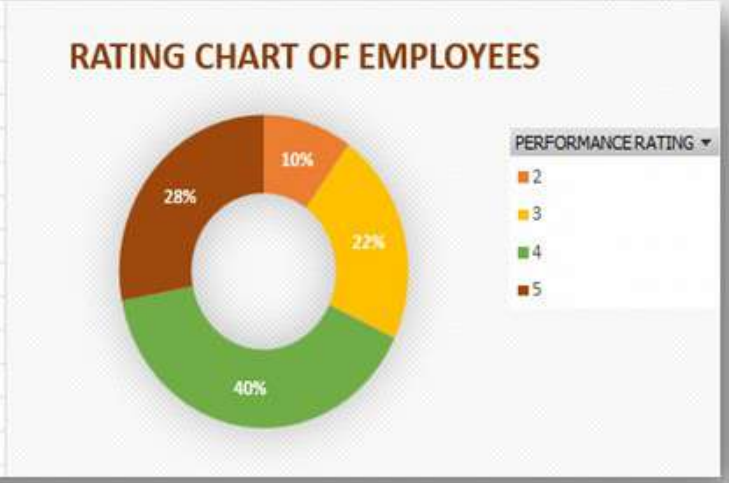
This scatter chart displays the average salary grouped by years of experience. On the left, each data point represents a range of experience (from zero years onward), while on the right, the average salary for each experience level is plotted. This allows us to see how compensation evolves as employees gain experience, providing a clear picture of career progression and pay growth trends.

EXPERIENCE	Average of SALARY
0	₹ 30,000.00
1	₹ 33,200.00
2	₹ 39,000.00
3	₹ 44,000.00
4	₹ 45,500.00
5	₹ 52,500.00
6	₹ 54,000.00
7	₹ 58,666.67
8	₹ 61,500.00
9	₹ 59,000.00
10	₹ 63,666.67
11	₹ 72,000.00
12	₹ 71,666.67
13	₹ 78,000.00
14	₹ 82,000.00
15	₹ 81,500.00
16	₹ 85,000.00
17	₹ 88,000.00
18	₹ 89,500.00
20	₹ 95,000.00
22	₹ 97,000.00
Grand Total	₹ 57,220.00

PERFORMANCE RATING DISTRIBUTION

This pie chart illustrates the percentage of employees in each performance rating category. On the left, each rating level is listed, and on the right, the number of employees per rating is shown, expressed as a percentage of the total. This visualization provides a quick snapshot of overall performance distribution, helping identify where the majority of employees stand and guiding decisions around talent development and recognition.

RATING	NO. OF EMPLOYEES
2	5
3	11
4	20
5	14



CONCLUSION

This HR Analytics Dashboard provides a comprehensive, data-driven view of the organization's workforce. From individual employee snapshots to department-level distributions, gender ratios, and performance ratings, each chart and metric sheds light on key trends. The average salary by experience and performance rating distributions further highlight how pay and performance evolve over time. Together, these insights help HR leaders make informed, strategic decisions—identifying top talent, addressing pay gaps, and ensuring balanced growth across the company
